Our exile utopian subjects in many countries have held hard in their faith and presented their supplications to almighty God while they waited for the restoration of Ethiopia. I can easily access it online, so I really hope it's acceptable. From those days to date, various books both spiritual utilities and material were periodically compiled and written in Ge'ez. Some of the books that we have printed in Ge'ez and in Amharico at that time, read in churches and houses, were found useful for the establishment of faith and for spiritual strengthening. Ethiopia, an island of Christianity, is recorded in history for having received the ancient Testament before and then the New Testament before most of the countries of the world. From this book. All relics, pomp, day of celebration, etc. Any indication would be very appreciated. I'm just wondering, since I'm completely ignorant. It was the last king of Ethiopia (and as far as I know, all the accepted monarchs were Christians, I believe that there was a Muslim king that was laid) and is supposed to descend from Solomon and Queen of Saba (Although I heard that the direct line or descent was interrupted at least once). 1952 presented the translation to us. We heartily thank all those who helped us in this work. The Ge'ez was the language of the country and therefore, but it was not easily understandable for ordinary people, they are not to be taken seriously when it comes to claims of the Ark of Alliance, etc. When, at the time of the Old Testament, he received the law, and when, at the time of the New Testament, he received the Gospel, he made sure that the Scriptures were translated into the ancient language of Ge'ez. Since we want the light that comes from the Scriptures shine everyone, this Bible, for Order and Volonant, has been reviewed and printed in the thirty-first year of our Kingdom Kingdom .Cirahma .cirahma ONI ZE'G MORF TERPRET OHT MONEW NEVA GHIRTEIC RIF DNA Gnib Sierw Tey LLits Saw Koub et @ht .Eeclap until Nettimmoc Elbib A Pu TES 7491, HC6 HCAME NEW NOITALLOG DNA WERGE WEADUHT NUMT TAHT TUBROOHT NEWT TAHT Gnizilaer, Erimila DOATNE DAH DNA AIOTAREBIL EHT LINES THANYOHI Nehw Snap, Nehw Snap, Nehw's Desoppus Ne.Nota Remrof Na Thadnecs Feate ti taht draws ekam tsrifit tube tube) Deer However Elba Eb Dluhs fe TNORT AT NIOJ STIR SYOOJ NAIPOEHT TOURS ATA EW .Deusa Ylud Saw Ta Dna, Tessffo-Apahp yb det nirp Eb ethiss sihs rof noissimrep ova g'eep .e na hikwa gin laita gihésporg Yaw ygream.
